3M™ DBI-SALA®
Fall Protection
Bringing safety to every corner of the globe.
We do it all for one reason: **you.**

Every day, thousands of people around the world go to work and perform tasks at heights most would never dream of climbing to—a dangerous calling that results in thousands of injuries every year.

Whether you’re reaching for the sky or crawling into tight confined spaces, our commitment to you remains the same: outfitting you with quality, comfortable 3M Fall Protection, backed by science and designed to help you get the job done and get home safely.

**Fall Protection Portfolio.**
- Anchors
- Body Harnesses
- Connecting Devices
- Descent and Rescue
- Fall Protection for Tools
- Confined Space
- Engineered Systems

**World-class manufacturing & support.**
- **10** Manufacturing Sites
- **17** Distribution Centers
- **20** Sales & Customer Service Centers
- **200+** Approved Repair Centers supporting all **20,000+** of our products.

**Dedicated training & education.**
- **10+** Safety Training Centers & **60** Fall Protection Demo Vehicles serving people with valuable knowledge and best practices **anytime, anywhere.**
Customer service you can count on.

Your work never slows down—and neither do we. Our Customer Service team is committed to ensuring you have the 3M Fall Protection you need when and where you need it.

Velocity Shipping

Velocity Ship items available to ship same day

Flat Fee Product Repair

Many of our products can be repaired at our Red Wing, Minnesota facility in just 3 days or they can be repaired at one of our over 200 Approved Repair Centers.

Training that goes beyond the textbook.

3M’s full range of fall protection, confined space and rescue training courses are offered throughout the year at our state-of-the-art training centers. 3M also offers on-site safety training across our portfolio that is tailored to meet the unique environment of your facility.

At our site or yours, you can trust 3M Fall Protection to provide world-class fall safety training. Topic areas include:

- Fall Protection Training Courses
- Confined Space Training Courses
- Rescuer Training Courses
- Advanced Level Training Courses
- Fall Protection for Tools Training Courses

3M.com/SafetyTraining
We help you unravel the regulations.

**Walking-Working Surfaces**

From rooftops and ladder cages to outdoor advertising and more, we offer a full suite of information and versatile fall protection solutions to help bring your facility up to compliance with OSHA’s 29 CFR 1910.30 mandate. For vertical safety solutions, see our Lad-Saf™ Systems and Ladder SRL Anchors (pg. 24) and a variety of other anchorage solutions to help you get compliant (pg. 5).

**Leading Edge Applications**

As common as they are hazardous, leading edges—or the unprotected side and edge of a floor, roof or formwork for a floor—require specialized fall protection designed for the task. That’s why we’ve developed a distinctive orange icon that we placed all of our leading-edge certified 3M Fall Protection products, such as our self-retracting lifelines (pg. 65) and shock-absorbing lanyards (pg. 87).
The gear you need.
The savings you want.

Trade In, Trade Up Program

We’re so confident you’ll love our fall protection products that we’ll let you trade in your current gear and give you a rebate on new purchases. Harnesses, SRLs, lanyards and more — we’re including over 1,200 products to choose from.

If you already use 3M Fall Protection products, you can trade up to get rebates when you upgrade on gear with more features and benefits. It’s a great time to assess your equipment and make the switch to 3M™ DBI-SALA® Fall Protection.

Calculate your rebate at go.3M.com/FPtradein.

Connecting like never before.

3M Connected Safety is a cloud-based, Internet of Things (IoT) platform that combines data science and our PPE technology to help organizations advance the digital transformation of worker safety.

That means workers can be confident they’re using products properly, and safety managers can have peace of mind that those products have been properly maintained, inspected and operated day in and day out.

Safety & Inspection Manager (SIM)

Gain valuable access to real-time product information and servicing data with a tap of your phone. Your customized dashboard gives you exactly the information you need and helps you track your PPE inventory like never before.

Now offering a Basic Fall Protection package to help meet your PPE inspection needs.

3M.com/ConnectedSafety
The ABCs of fall protection.

With over 20,000 products designed for the specific needs of every industry with at-height hazards, we can find the just-right combination of anchorages, body support and connector solutions to meet the requirements of virtually any application.

Anchorages
are a secure point of attachment. Anchorage connectors vary by industry, job, type of installation and structure. They must be able to support the intended loads and provide a sufficient factor of safety for fall arrest.

Body support
harnesses distribute fall forces over the upper thighs, pelvis, chest and shoulders. They provide a connection point on the worker for the personal fall arrest system.

Connectors
such as self-retracting lifelines or shock-absorbing lanyards connect a worker’s harness to the anchorage.

Descent and rescue
devices are used to raise or lower a fallen injured worker to safety or retrieve him from a confined space.

Education
is essential. We offer a variety of training and consultative services to fit your needs.

Fall protection for tools
helps make work environments safer and more productive by reducing dropped object incidents.
Anchorage Connectors: New Products

Anchors designed to help you stay focused on the job.

Set your sights on a higher level of confidence and security with 3M™ DBI-SALA® Anchorage Connectors. Tested to meet OSHA and ANSI standards, our comprehensive portfolio of anchorage connectors gives you the gear you need to get the job done right.

- Anchorages for general/all-purpose, steel, concrete, roof, mining or specialty.
- Fixed or mobile.
- Permanent or portable.

All anchorages must provide a secure point of attachment for a complete personal fall arrest system and must be capable of supporting a load of 5,000 lbs. (22 kN), or of meeting OSHA’s criteria of a 2-to-1 safety factor.

  See page 10 for more information.
### 3M™ DBI-SALA® General Anchorage Connectors

Anchors are easily choked-off to the anchorage structure, to provide a fast and safe 5,000 lb. (22 kN) tie-off point for your personal fall protection system.

#### 1003000
Web Tie-Off Adapter
Pass-through design. 1-3/4 in. polyester strength member with 3 in. wide polyester wear pad x 3 ft. (0.9 m)
- **1003006** Web Tie-Off Adapter, pass-through type x 6 ft. (1.8 m)
- **1002103** Adjustable Web Tie-Off Adapter, pass-through type x 3 ft. (0.9 m)
- **1002106** Adjustable Web Tie-Off Adapter, pass-through type x 6 ft. (1.8 m)
- **1002010** Web Tie-Off Adapter, pass-through type x 10 ft. (3.0 m)

#### 1201390
Web Scaffold Choker
Choker style attaches to 3 in. (76 mm) diameter anchorage. 1 in. (25 mm) polyester strength member x 17 in. (43 cm)
- **1201391** Web Scaffold Choker x 24 in. (61 cm)
- **1201422** Coated Web Scaffold Choker, PVC Coated D-ring x 2 ft. (0.6 m)

#### 1002202
Tie-Off Adapter for Hot Work Use
Reinforced with Kevlar® fiber webbing; ideal for high heat environments, pass-through type with 1-3/4 in. polyester strength member x 6 ft. (1.8 m)
- **1002200** Tie-Off Adapter, with Kevlar® fiber, pass-through type x 3 ft. (0.9 m)
- **1002201** Tie-Off Adapter, with Kevlar® fiber, pass-through type x 4 ft. (1.2 m)

#### 5900550
Cable Tie-Off Adapter
Pass-through design. 7 x 19 (9.5 mm) stainless steel cable with O-rings x 4 ft. (1.2 m)
- **5900551** Cable Tie-Off Adapter, pass-through type x 6 ft. (1.8 m)
- **5900552** Cable Tie-Off Adapter, pass-through type x 10 ft. (3.0 m)

#### 3M™ DBI-SALA® Saflok™
Steel Carabiners

#### 2104816
Drop-Through Anchor
10 ft. (3 m) drop-through anchor with swiveling D-ring for concrete (≥ 4 in. (101.6 mm) thick) and steel, fits 1-1/2 in. to 1-3/4 in. dia. hole (38.1 to 44.5 mm).
- **2104819** Drop-Through Anchor x 2 ft. (0.6 m)
- **2104818** Drop-Through Anchor x 6 ft. (1.8 m)
- **2104817** Drop-Through Anchor x 8.5 ft. (2.6 m)
3M™ DBI-SALA® Steel Anchorage Connectors

Anchors for steel that are lightweight and compact, providing an easy to install and safe 5,000 lb. (22 kN) tie-off point for your personal fall protection system.

**2104710**
Sliding Beam Anchor
- 3-1/2 in. to 14 in. beam width.
- Size ranges to fit a variety of beams.
- Replaceable wear pads.
- 360-degree swiveling D-ring anchor point.
- Integrated dual ratcheting system.
- Steel and aluminum construction weighs 3.5 lbs. (1.6 kg).
- 5,000 lb. (22 kN) strength

**2104709**
Strut Anchor
- Allows for one step, one hand installation.
- One-piece design is simple, lightweight and compact.
- Accommodates 1-5/8 in. (4.1 cm) wide strut.
- Includes visual indicator that anchorage is installed correctly and ready for use. (Reflective tape visible from ground level with artificial light source.)

**2108406**
Fixed Beam Anchor
It installs to the beam structure in any orientation, with final tightening using a built-in adjustment handle. Ideal as a single-person anchor point or as end-anchors for any 3M Pre-engineered Horizontal Lifeline System. Fits up to 1-1/2 in. thick beam flange, 2-1/2 in. to 12 in. wide.

**2108407** Fixed Beam Anchor, fits up to 1-1/2 in. thick x 2-1/2 in. to 18 in. wide beam flange.
**2108408** Fixed Beam Anchor, fits up to 1-1/2 in. thick x 2-1/2 in. to 24 in. wide beam flange.
**2108410** Fixed Beam Anchor, fits up to 1/2 in. to 2-1/2 in. thick x 12 in. to 36 in. wide beam flange.

**2103143**
Trolley for I-Beam
The trolley is for use with self-retracting lifelines on horizontal beams and has been engineered to glide along the beam and provide horizontal mobility.
- Double-shielded wheel bearings.
- Trolley guards protect the wheels from damage and keep beam clear of debris.
- Fits 3 in. to 8 in. flange width and thickness up to 11/16 in.

**8800023**
Tandem Pulley
For 3/8 in. to 1/2 in. rope or cable.

**2104550**
Steel Plate Anchor
This plate anchor offers a compact attachment to 3/8 in. to 1 in. thick plate steel for connecting your lanyard, vertical lifeline system or self-retracting lifeline.
- Easy-to-use set-screw design ensures positive and safe connection.
- Complete with integral D-ring tie-off point.
- Durable, corrosion-resistant zinc-plated steel construction.
Concrete D-Ring Anchor solution for use in temporary or permanent applications, providing a safe tie-off point.
- Reusable D-ring assembly.
- Indicator shows when anchor is properly tightened.
- Install into 11/16 in. (18 mm) or 3/4 in. (19 mm) holes.

2104560 Concrete D-Ring Anchor
Concrete anchor solution for use in temporary or permanent applications, providing a safe tie-off point.
- Reusable D-ring assembly.
- Indicator shows when anchor is properly tightened.
- Install into 11/16 in. (18 mm) or 3/4 in. (19 mm) holes.

2101004 Concrete Detent Anchor
Concrete anchor utilizing pre-installed sockets, enabling the user to connect and disconnect from the anchorage by simply pressing a button.
- Use for floor, wall or ceiling type applications.
- Provides convenient tie-off points wherever needed.
- Push-button operation for fast and easy operation.
- Socket includes cover cap to hide recess, blending into the decor.

2100152 Concrete Pour-in-Place Anchor.
2100169 Pour-in-Place Detent Anchor Assembly with detent pin and socket.
8523178
Concrete Parapet Anchor
Portable anchorage connector developed for use in locations where a low parapet wall provides an anchor site for a shock-absorbing lanyard or self-retracting lifeline.
- Non-penetrating design.
- Adjustment range 1 in. to 14-1/2 in. wide.
- No tools required for installation.

1231305
Web Anchor
Anchor can be directly connected to many concrete wall forms to provide a tie-off point for your system. Web anchor strap with large opening, Hook at one end, D-ring at other x 1.5 ft. (45 cm).

2100050
Concrete Anchor Strap
Our disposable concrete anchor strap provides a temporary anchorage on concrete forms.
- Loop slips over rebar, then concrete is poured over. When no longer needed, simply cut strap and discard.
- Durable 1-3/4 in. polyester construction x 3-1/2 ft. (1 m). Full length wear pad for abrasion resistance.
- D-ring provides compatible tie-off point.
2100053  Concrete Anchor Strap with D-ring, 48 in. (1.2 m)
2100061  Concrete Anchor Strap, no D-ring, 3-1/2 ft. (1 m)
3M™ DBI-SALA® Roof Anchorage Connectors

Wood or steel. Residential or commercial. Flat or sloped. No matter what type of roof you’re working on, your fall protection system needs specialized components to help keep you safe. Our anchorage devices help to provide reliable solutions and meet applicable OSHA and ANSI standards for anchorage connectors.

- Four similar rooftop anchors designed specifically for certain roof types.
- Tip-over design reduces need for structural reinforcement and allows for connection right to roof deck.
- Can be used as a single point anchor, or pair two together to create a temporary horizontal lifeline.

Rooftop Anchors

2100185 Freestanding Counterweight Anchor

2103670 Permanent Roof Anchor with Flashing and Cap

2103673 Portable Reusable Roof Anchor

2103677 Portable Reusable Roof Anchor

2104541 Detachable Roof Anchor with Flashing

2103690 3-Man Reusable Swiveling Roof Anchor

2190071 Swiveling Roof Anchor
- Installs to sloped or flat wood and metal decking roofs.
- Fast and easy installation.
- Secondary d-ring anchor point.
- Portable and reusable.

2190073 Standing Seam Roof Anchor
- Installs to flat or sloped standing seam roofs.
- Built-in non-penetrating clamp design.
- Slide on the tube.
- Portable and reusable.

2190074 Construction Roof Anchor
- Installs to rebar ring during pre-cast concrete work.
- Built-in ratcheting securement system.
- Dual-use design.
- Portable and reusable.

### 2104168 Roofer’s Fall Protection Kit

Complete fall protection system in a bag for convenient compliance and safety on the job.

- **Kit includes:**
  - Reusable Roof Anchor (2103673)
  - Full-Body Harness (1103513)
  - Rope Adjuster with Shock-Absorbing Lanyard (1246037)
  - Lifeline x 50 ft. (1202794)
  - Counterweight (5901583)
  - Carrying Bag (9503806)

2104169 Roofer’s Fall Protection Kit with Roof Anchor (2103676)
Remote Anchoring System

Provides anchorage connection to secure a fall protection device to an overhead location beyond normal reach.

- Pole adjusts from 6 ft. to 12 ft. (1.8 m to 3.6 m)
- Tie-off adapter tool for installation of anchorage device.
- Hook attachment tool for installation of 3,600 lb. gated snap hooks.
- Tie-off adapter x 3 ft. (0.9 m) and carrying bag.

2104528 System with 8 ft.–16 ft. (2.4 m–4.8 m) adjustable pole

2104529 Snap Hook Connector Tool for 3,600 lb. gated hooks.

2100090 Perimeter Limiter
Leading Edge Anchor

Freestanding, non-penetrating anchor for concrete decking construction and provides overhead anchorages for up to two users.

- Large foam filled trailer tires won’t go flat and provide easy movement.
- 7-1/2 ft. (2.3 m) mast and anchorage arm for added freedom of movement.
- Pre-drilled holes for accessory rescue winches.

2100080 Door/Window Jamb Anchor

Non-penetrating anchor is lightweight and portable, requiring no tools for attachment. Adjustable opening ranging from 21-1/2 in. to 51-1/2 in. (54.6 cm to 130.8 cm). Rated for 3,600 lbs. (16 kN)
This Self-Contained Vacuum Anchor (SCVA) System allows workers to anchor to compatible, smooth, non-porous surfaces—enabling them to work where they need to without compromising their fall protection safety. At just over 19 lbs., the system provides workers the freedom to move about with confidence. All models are OSHA, CE and AS/NZS compliant and feature a comprehensive backup system to enhance worker safety.

Choosing a horizontal lifeline system
It’s critical to choose a system that has been precision engineered and rigorously tested to meet OSHA requirements. Some other important considerations include:

Anchorage structure
The I-beam, rebar stud, concrete column or roof you attach your system to can dictate the type of system required.

Portable or permanent
Temporary jobs require portable systems that can be moved efficiently from one location to another. For hazardous areas that need to be accessed often, a permanent solution may be a better choice.

Lifeline type
Synthetic lines are lightweight and compact, while galvanized or stainless steel offer enhanced corrosion and abrasion resistance.

Number of users
Consider the number of workers required and choose a system that can accommodate them safely.

Clearance requirements
The distance between the work area and the next level or obstruction below is called “fall clearance.” Anchorage height, type of lifeline and length are some of the factors that will affect the required clearance needed.

3M™ DBI-SALA® Horizontal Systems
These systems incorporate a modular, multi-base design that accommodates a wide range of steel and concrete beams.

- Interchangeable stanchions—great for steel and concrete applications.
- Portable.
- Single and multi-span options available.
- Pass-through bracket provides 100% tie-off capability.
- Integrated 3M™ DBI-SALA® metal energy absorber limits forces on structure.

Steel I-Beam Applications
- Single clamp and wing nut design.
- Adjustments made from top of beam.
- Fits flanges 6 in.–12 in. wide, 2-1/4 in. thick.
- Optional bases for 18 in., 24 in. and 36 in. widths.

Concrete rebar & shear stud applications
- Attach with torque wrench.
- Chain tie-back connection.
- Fits 1/2 in.–1 in. diameter (#4–#8 rebar) and 4 in.–12 in. center to center.

**3M™ DBI-SALA® EZ-Line™ Retractable Horizontal Lifeline (HLL) System**

**7605060**
Retractable Horizontal Lifeline (HLL) System

*This is an easy-to-use lifeline system that you can install, remove and store quickly.*
- Can reduce installation time vs. standard horizontal lifeline systems.
- Can be setup to accommodate 6 total users (2 per sub-span).
- Includes built in pre-tension and impact indicators.

*7600002 Replacement EZ-Line Handle Assembly*

*See product instruction manual for complete clearance information.*

**7241031** Metal energy absorber kit used when multi-spans are required

---

**3M™ DBI-SALA® Temporary Cable Horizontal Lifeline System**

These systems are portable and can be used for situations where welding, sparks or harsh environments are present, or where minimum clearance exists.
- Includes cable lifeline assembly with wedge grip termination, tensioner and 3M™ DBI-SALA® metal energy absorber.
- Durable all-metal system can be left in place for long periods.
- Use with any 5,000 lb. anchorage device.
- Two worker capacity.

3M™ DBI-SALA® Temporary Cable Pour-in-Place Horizontal Lifeline System for Stanchions

7400203

This portable system installs to column tops, providing an overhead tie-off point during the decking process. Complete system includes two stanchions, and 20 ft. cable assembly with tensioner and 3M™ DBI-SALA® metal energy absorber.

- Single and multi-span options with unlimited length.
- Pass-through design provides protection for up to two workers.
3M™ DBI-SALA® Temporary Cable Pour-in-Place Horizontal Lifeline System for Stanchions Accessories

**7400200** Intermediate Bracket
Allows system to be configured into multi-span type; intermediate can be bypassed with connector snap hook.

**7400211** Clamp-On Vertical Base
Clamps to existing vertical steel and concrete structures, zinc-plated steel construction.

**7400222** Weld-On Vertical Base
Welds to vertical steel structures, steel C-channel construction.

**7400203** Stanchion Assembly
7 ft. 6 in. tall.

**7400218** Bolt-On Vertical Base
Bolts to vertical steel and concrete structures, zinc-plated steel construction.

**8530267** Bolt-On Floor Base
Bolts to steel and concrete horizontal surfaces, zinc-plated steel construction.

**8530827** 304 Stainless Steel.

**7400201** Concrete Sleeve
For pour-in-place post horizontal lifeline systems.

**7400222** Weld-On Vertical Base
Welds to vertical steel structures, steel C-channel construction.

**8530267** Bolt-On Floor Base
Bolts to steel and concrete horizontal surfaces, zinc-plated steel construction.

**8530827** 304 Stainless Steel.

Sayflink sleeve sold separately.

**Temporary Multispan Cable Accessories**

- **7608001 Intermediate Bracket**
  For multi-span systems.

- **7608002 Sayflink™ Sleeve**
  For Temporary Multispan Cable Horizontal Lifeline Systems.
Vertical fall protection systems allow workers to move up and down the entire height of the lifeline rather than having to disconnect and find new tie-off points along the way. Some important considerations when selecting a system include:

**Portable or permanent**
Temporary jobs require portable systems with synthetic lifelines that can be moved from one location to another. For structures that are accessed often, a permanent solution is a better choice.

**Mobile or fixed**
Mobile rope grab or ladder sleeve designs automatically follow the user for easy operation. Fixed devices allow the user to fix the unit in place for positioning or restraint applications.

**The rules have changed: walking-working surfaces**
OSHA’s final rule to update general industry walking-working surfaces and fall protection standards (29 CFR 1910.140) means that outdoor advertising fixed ladders over 24 feet will require ladder safety or personal fall arrest systems. It also means that fixed ladder cages and wells must be phased out and replaced by ladder safety or fall arrest systems by 2036.

3M™ DBI-SALA® Vertical Systems are designed to complement your ability to work while meeting all applicable OSHA and ANSI standards.
Adding or upgrading your vertical safety systems just got easier. The new generation of Lad-Saf Systems are reengineered to simplify and speed up the installation process. With up to 72% fewer loose components* than some of our previous models, these lightweight systems are streamlined for easy installation and maintenance on a variety of structures—such as fixed ladders and telecommunication towers.

They have also been designed to meet the requirements of the new ANSI Z359.16 standard when used with our Lad-Saf X2 or X3 sleeve, helping you to stay in compliance with the current fall protection standards.

**Convenient**
Integrated fall arrest-rated anchor point.

**Fast**
Installation is easy with fewer loose parts and more robust cable tensioning and termination as compared to our previous systems.

**New Pre-Swaged Cable Termination**
Durable, high-strength steel construction that allows for easy installation and maintenance-free longevity.

**Flexible**
Mounting brackets can be used on a variety of fixed ladder styles that may consist of different rung spacings and shapes.

**Light**
Total system weighs less than our previous 2- and 4-user systems.

**Simple**
Most configurations use fewer than 13 separate components—up to 72% less than some of our previous models.

**Compatible**
Designed for use with your Lad-Saf X3 Detachable Cable Sleeve (6160054). Also compatible with Lad-Saf X2 Detachable Cable Sleeve (6160030).

### 5901980 Ladder Gate

Designed to help protect you from the dangers (and liability) of unauthorized ladder access.

- Fits ladder widths up to 20 in. (50.8 cm). Mounting hardware included.
- Aluminum construction 8 ft. (2.4 m) height x 36 in. (91.4 cm) width.

---

### Walking-Working Surfaces:

**General Industry 29 CFR 1910 Ladder Requirements**

Applies to fixed ladders that extend over 24 feet.

Employers must equip existing fixed ladders with a cage, well, ladder safety system or personal fall arrest system.

**Effective November 19, 2018**

Employers must begin equipping new fixed ladders with a ladder safety system or personal fall arrest system.

**Effective November 19, 2018**

All fixed ladders must be equipped with a ladder safety system or personal fall arrest system.

**Deadline: November 18, 2036**
An alternative option to bring your ladders into compliance is here: the 3M™ DBI-SALA® Fixed Ladder SRL Anchor. At under 30 lbs., this solution adds a convenient tie-off point to existing ladders, helping you meet OSHA’s walking working surfaces standard.

Designed with versatile mounting capabilities, the ladder anchor can be positioned to the left or right, and in front or behind the ladder rungs to stay out of the way.

**Transportable.**
- Under 30 lbs. for ease of transport and installation.

**Simple setup.**
- Some installations may be made in as little as 5 minutes.

**Versatile installation.**
- The ladder anchor can be mounted to the front or behind the ladder with left, right or center alignments.

**Compliant to standards.**

**Compatible with your existing fall protection harness.**
- Unlike a fixed cable system, this solution doesn’t require a front D-ring, which can reduce overall implementation costs.

**Designed for durability.**
- Available in galvanized or stainless steel.

**Compatible installation.**
- The ladder anchor can be mounted to the front or behind the ladder rungs with left, right or center alignments.

**Designed for durability.**
- Available in galvanized or stainless steel.

**3M™ DBI-SALA® Engineered Systems**

Flexibility for demanding worksites.

Meet the fall protection needs of your unique worksite with a safety system designed specifically for your application. A 3M certified specialist will help you with options for the selection, installation, training and use of your engineered system. Contact customer service to find a certified specialist to assist you.

---

**Overhead Applications**
- Specifically designed to meet the needs of transport and industrial applications.
- Can be used for work at height on trains, trucks, aircraft, crane walkways and loading bays.
- Supports self-retracting lifelines and controlled rate descent devices up to 33.1 lbs. (150.1 kg).
- Allows up to 200 ft. (61 m) single span for one user and up to 100 ft. (30.5) single span for multiple users.*

---

**Wall and Floor Applications**
- Engineered lifeline systems can be used for modern building projects, refurbishments and industrial safety applications.
- Can be fitted to steel beams, concrete and brickwork.
- Suitable for use on older roof constructions in conjunction with fabricated anchor posts.**

---

*The number of system users and span lengths must be verified by the calculation software.

**Not supplied by 3M Fall Protection.

---

**3504550**

**3M™ DBI-SALA® Ultra-Lok™ RSQ Self-Retracting Lifeline**
Dual mode RSQ allows for a simple, effective rescue should a fall event occur.

---

**3500214**

**3M™ DBI-SALA® Nano-Lok™ edge Quick-Connect Self-Retracting Lifeline**
8 ft. (2.4 m) lifeline with 3/16 in. (5 mm) galvanized steel wire rope and aluminum captive carabiner, quick connector for harness mounting.

---

See customizable systems on the following page.
Each worksite presents its own set of unique challenges, so fall protection systems need to be adaptable to ensure worker safety. We offer a comprehensive range of fully compliant, practical solutions for most industries.

**Roof Safe Cable and Anchor System**

Designed with today’s modern lightweight roofs in mind, these systems include minimally intrusive fixing procedures. They’re designed for installation on a wide variety of roofing structures while protecting their integrity, and feature a variety of components that can be combined in a multitude of configurations.

- Posts can be used as part of an HLL System or as standalone single point rooftop anchors.
- Span up to 15 m (50 ft.) between anchors.
- Provides continuous hands-free access for up to four simultaneous users.

**8 mm Permanent Horizontal Lifeline Systems**

Cloud based software helps with installation procedures. These systems are easy to calculate, design, specify, install and use.

- Posts can be used as part of an HLL System or as standalone single point rooftop anchors.
- Span up to 15 m (50 ft.) between anchors.
- Provides continuous hands-free access for up to four simultaneous users.

**Horizontal Rail Safety Systems**

Made of a quality extruded aluminum, these rail systems combine a simple, continuous and functional anchorage system for user safety, along with a low profile design that may help with facility or building aesthetics. In addition to fall protection applications, it has also been used extensively as the primary anchor point for suspended rope access tasks.

- Span up to 15 m (50 ft.) between anchors.
- Posts can be used as part of an HLL System or as an individual anchor point
- Provides continuous hands-free access for up to four simultaneous users.
Roof Safe Cable and Anchor System
A range of system components are available including free-flowing intermediate guides and corner attachments, providing complete hands-free movement across a Horizontal Lifeline System.

8mm Permanent Horizontal Lifeline Systems

Unique solutions for unique applications.
No two jobs or job sites are the same. Whether you’re working on airplanes or oil rigs, you need a secure anchor point to get the job done. 3M™ DBI-SALA® Flexiguard™ Solutions are designed to help provide safe working areas with overhead anchor points for one or more workers in a variety of challenging situations. These systems are versatile and often mobile. Rugged enough for indoor or outdoor applications, these systems are great for the transportation, construction, oil and gas, mining and utilities industries.

Augment your expectations.
The 3M Fall Protection Configurator App is here—view select 3M™ DBI-SALA® Flexiguard™ Solutions in your work environment, right from your phone. Contact 3M for more information or to schedule a site assessment.
Get the coverage you need with this modular fall protection system. Available in both the M100 and M200 Series, the 3M™ DBI-SALA® Flexiguard™ Modular Jib System features a simplified design that enhances worker safety in multiple applications. Increased rail-length configurations improve working coverage while a new design facilitates easier system transport.

3M™ DBI-SALA® Flexiguard™
Counterweighted Rail System

The Counterweighted Rail System is a portable solution with a counterbalanced design utilizing concrete blocks as ballast. The design allows for optimal positioning and maximum safe working coverage.

- Aluminum glide rail provides continuous fall protection up to 54 ft. long.
- Helps easily create an overhead anchor point for multiple workers.
- Portable system provides flexibility and versatility, letting you position close to the work surface without obstructing the equipment being accessed.
- Systems available with or without concrete counterweight on base.

### 3M™ DBI-SALA® Flexiguard™ Jib Arms & Rails

The Pivoting Jib Arm & Rail systems are permanently mounted and integrated systems, providing optimal and non-intrusive coverage. These designs clamp to pre-existing structures making them ideal for manufacturing environments and other similar applications.

- Non-base mounted system attaches to supporting, fixed structure (e.g. on I-Beam) on the job site.
- Mounting clamps, plates and hardware included with systems.
- System rotates 180 degrees and locks every 7.5 degrees.

The C-Frame System is a mobile solution designed to be positioned manually, or with the use of a tow bar (optional) and service vehicle. The freestanding design utilizes protruding outriggers that extend below the work surface for stability. Available in adjustable height and fixed height models for a wide variety of applications.

- Designed to be moved manually or with a tow bar and service vehicle.
- Designed to be positioned under equipment with minimal ground clearances.
- Adjustable systems allow rail height to be adjusted by manually cranking the winch—allowing for passage under obstructions and building doorways.

The A-Frame System is a mobile solution designed to be positioned manually. The freestanding design straddles the work surface, taking up minimal floor space. Available in adjustable height and fixed height models, this two-user solution can be utilized for a wide variety of applications.

- System contains a single rail rated for two users.
- Glide rail includes two trolleys rated for one user each.
- Systems include heavy-duty leveling jacks.
- Lightweight aluminum construction.*
- Portable design that can be moved easily.
- Four integrated swiveling wheels.

The Box Frame System is a mobile solution designed to be positioned manually. The freestanding design straddles the work surface, allowing the fall protection rails to run parallel with the work surface. This system will provide fall protection coverage over a large footprint or area. Available in adjustable height and fixed height models, this two-user solution can be utilized for a wide variety of applications.

**Fixed Height Features:**
- Provides an effective overhead anchor point.
- Available as a permanent frame or portable for easy relocation.

**Adjustable Height Features:**
- Adjustable using an overhead crane, forklift or powered system.
- Combines overhead anchorages with mobility in areas with overhead obstructions or door height restrictions.
- Integrated pin-height selection system.

The Portable Access Ladder System (PALS) is a mobile solution designed to be positioned manually or with the use of a tow bar (optional) and service vehicle. An adjustable height integrated ladder provides access and egress from elevated work surfaces with an integrated anchor point for added security. The optional rescue kit enables confined space rescue and retrieval capabilities on elevated work surfaces. A variety of other options and accessories make this ladder highly configurable for unique applications.

- Manual height adjustment via winch assembly.
- Multiple height adjustment ranges available.
- All systems include a fall arrest bar for accessing ladder.
- System includes heavy-duty leveling jacks.

- **8530856** Guardrail add-on kit for uneven surfaces
- **8530855** Rescue kit
- **8515349** Sideways moving kit
- **8530859** Folding tow bar kit with 2 in. ball and pintle couplers included
This system is a mobile solution designed to be positioned manually or with the use of a tow bar and service vehicle. An adjustable height integrated ladder provides safe access and egress from elevated work surfaces with integrated anchor points supporting up to two workers simultaneously. Adjustable platform heights up to 30 ft. 11 in. provide the ability to serve a multitude of applications.

- Manual height adjustment via winch assembly.
- All systems include a fall arrest bar for accessing ladder.
- System includes leveling jacks.
- Includes 6 ft. working platform with foam bottom and collapsible guardrail handles.

### 3M™ DBI-SALA® Flexiguard™ Trailer Mounted Anchor System

The Trailer Mounted Anchor System is a mobile solution designed to be towed with a service vehicle from application to application. This self-supported design does not require the service vehicle to be attached for use. With an adjustable anchor height of 20 ft. 6 in., and the capacity for two workers, this solution provides maximum versatility.

- Trailer mounted solutions maximize portability and versatility to and from job site.
- System quickly raises and lowers with integrated winch and handle.
- Integrated brake mechanism automatically locks the mast height in the desired position.

### 2-User Rated Trailer System

Harnesses

Whether you are 6’ or 60’ off the ground, your harness is more than just your safety connection — it’s everything.

The right safety harness provides comfort and confidence, and could benefit the user’s productivity, as well as gives them versatility to do what needs to be done on the job site. 3M™ DBI-SALA® Harnesses are designed for those who refuse to compromise. The new ExoFit™ X-Series harnesses are outfitted with components that have been developed to help enhance the safety, convenience, and performance for working at height on your jobsite.

We have launched innovations such as the Automatic stand-up dorsal D-ring, Revolving torso adjusters, locking quick-connect buckles, personal SRL adapter, anti-slide dorsal D-ring pad, weight distribution system, suspension trauma straps, and connected safety ID. While many of our harnesses can be used on most jobs, we also manufacture harnesses for specific uses within different industries, like Construction, Oil and Gas, Transportation, Utilities/Telecommunications and Wind Energy.
3M™ DBI-SALA® ExoFit™ X300 Harness

For those who refuse to compromise.

One of our most advanced harnesses just got better. With comfort and fit, it’s optimized to help increase the performance and productivity of professionals who take pride in a job done right.

- **Personal SRL adapter** allows for connection of personal SRLs with confidence and ease.
- **3M™ Connected Safety ID**
- **Auto-locking quick connect buckles** to help maintain fit — greatly reducing buckle slide.
- **Comfort back pad** with built-in durable shoulder caps.
- **Radio/Cell Phone Holster**
- **Revolving torso adjusters** are fast and easy to adjust and lock webbing into place — maintaining a comfortable and safe harness fit.
- **Lightweight Aluminum D-Rings**
- **Lightweight Aluminum Tongue-Buckle And Durable Belt**
- **Comfort hip pad** with robust belt loops and rigid belt for tool pouch-carrying convenience.

**Automatic stand-up back D-ring,** conveniently connect faster and easier.

**Anti-Slide Dorsal D-Ring Pad**

**Weight Distribution System** takes weight off your shoulders.

**3M™ Scotchlite™ reflective panels** to enhance visibility in low-light environments.

**Auto-Resetting Lanyard Keepers**

**Integrated Low-Profile Suspension Trauma Relief Straps**

*3M Patented Technology.

**Comes integrated on select models.

Belts, Workseats and Accessories

3M™ DBI-SALA® Suspension Trauma Safety Straps

Relief. It can make a big difference when you’re suspended in your safety harness. It’s why every worker should be equipped with suspension trauma safety straps. They deploy and hook together, allowing a suspended worker to stand up in their harness with one or both feet to relieve downward pressure. They’re compact, lightweight and compatible with most harness brands in the field.

3M™ DBI-SALA® ExoFit™ STRATA™
Full-Body Harnesses

Lighten up with the first harness to feature an innovative load distribution system that literally takes the weight off your shoulders.

- Patented design redistributes weight off wearer's shoulders.
- Lightweight aluminum D-rings.
- Easy-linking SRL adapter & standup D-ring simplify connections.
- Mesh padding enhances breathability and comfort.
- Revolving adjusters maintain fit and lock excess webbing in place.
- 420 lb. capacity (Model shown #1112538).
- Quick-connecting buckles enhance adjust-ability.

These harnesses feature a special removable seat sling used for tower work.

3M™ DBI-SALA® ExoFit™ NEX/ExoFit™ NEX Plus
Rope Access and Rescue Harnesses

Complex jobs are easier when your equipment is suited to the task. These multi-use harnesses incorporate components and hardware to optimize rope rescue and industrial rope access work. This makes them ideal for the professional performing rescue and emergency services, industrial rope access and rigging, wind energy and tower maintenance — as well as for arborist activities.

3M™ DBI-SALA®
Lineman Belts
Achieve comfort, freedom of movement and ease of use with our ergonomically designed belts.
3M™ DBI-SALA® ExoFit NEX™ Arc Flash Full-Body Harnesses

All the comfort, function and durability you expect, paired with the flame resistance and conductive-resistant construction needed for high voltage electricity or hot-work, like welding. Meets arc flash standard specifications for personal climbing equipment as well as ANSI/ASSP Z359.11 and CSA Z259.10 requirements.

- Flame-resistant Nomex®/Kevlar® webbing rated to 7,000 lbs.
- Revolving adjusters maintain fit and lock excess webbing in place.
- Flame-resistant trauma straps.
- Conductive-resistant, PVC-coated aluminum D-rings.
- Leather insulators help prevent contact between hardware and body.
- Comfortable, lightweight arc flash-rated padding and soft edging.
- Quick-connecting buckles enhance productivity.
- Tested to perform to ASTM F887 for personal climbing equipment.
- 420 lb. capacity (Model shown 1113318).

3M™ DBI-SALA® ExoFit NEX™ Arc Flash Vest-Style Full-Body Harnesses

These harnesses feature Nomex®/Kevlar® fiber webbing, PVC coated D-rings and comfort padding.

Where to measure to determine the correct "D" size for a Lineman’s Belt:

- X = Distance from waist or top of hip bone to where Lineman’s Belt is worn.
- Y = Measurement is from front of hip bone around the back to the front of the other hip bone. This measurement is the "D" size.

64
The smaller the edge radius, the sharper the edge.

Sharp edges are found in many leading edge applications where the edge is able to cut or damage a traditional lifeline upon contact. Typical I-beams have edge radii that range from .005 in. to .032 in. Do you know how sharp your edges are?

Leading Edge
To visualize a leading edge, imagine a worker installing steel decking on a new building. Now imagine the worker’s fall protection system is anchored at foot-level behind him. As the worker moves out and away from the anchor point while installing the decking, the worker is exposed to a potential fall over the edge of the building or the edge of an elevated platform.

Sharp Edge
A sharp edge is one that, for practical purposes, is not rounded and has the potential to cut most types of lifelines. The ANSI Z359.14 standard for sharp edges, for example, involves testing the fall arrest device’s lifeline over a piece of steel bar with a radius of no more than 0.005 in. (5 one thousands of an inch). If the lifeline is cut or severely damaged, the device fails the test and does not comply with ANSI.
Understanding leading and sharp edges

Unique risks of leading and sharp edges:

1. **Increased fall distance**
   - Anchoring at foot-level increases the distance needed for fall clearance.
   - When workers are attached at foot-level, as they often are in leading edge applications, they will fall farther than they would if they were anchored at shoulder height or above. The required clearance when anchored at foot-level varies by product so make sure to reference the products’ user instructions.

2. **Lock-up speed**
   - Required time to reach velocity to engage lifeline takes longer because of longer fall distance.
   - Self-retracting lifelines react to a fall when the lifeline accelerates out of the housing at a certain velocity. When self-retracting lifelines are anchored at foot-level, the lifeline does not achieve the required acceleration during a fall until after the user’s D-ring passes over the leading edge and below the level of the anchor. This means the user has already fallen approximately 5 feet before the self-retracting lifeline device will engage to arrest the fall.

3. **Increased fall arrest forces**
   - Potentially higher impact to the body when the fall is arrested.
   - Falling further means the impact on the body through the fall protection system will potentially be greater when the fall is arrested. This is why leading edge and sharp edge rated products contain additional energy-absorbing devices.

4. **Increased potential for swing hazards**
   - This could create a sawing action on a lifeline strung taught over a sharp edge.
   - Depending on a worker’s position during a fall, they may swing like a pendulum after the fall is arrested. While swinging is a hazard under any circumstances, the danger is compounded if the worker’s lifeline is strung taught over a sharp edge and saws back and forth across that edge.
Leading Edge
Self-Retracting Lifelines

3M™ DBI-SALA® Smart Lock Leading Edge SRL and Modular Connector

3M testing shows that back D-ring extenders used with standard leading edge SRLs in leading or sharp edge applications could create the potential for a system component to be severed, but not anymore. The Smart Lock Leading Edge SRL is engineered to address this risk and allows for use of a 14 in. modular extension in leading or sharp edge applications.

- Integrated onto existing 3M™ DBI-SALA® Smart Lock Leading Edge SRL (30 ft.)
- Engineered to address risk of use for D-ring extensions in Leading Edge applications.
- Allows for use of 14 in. extension.
- Addresses durability constraints with replaceable shock-pack extender.

3M™ DBI-SALA® Ultra-Lok™ Leading Edge Self-Retracting Lifelines

This line of retractables includes lengths from 15 ft. to 55 ft. is approved for leading edge work and foot-level tie-off.

- Top swivel limits lifeline twisting.
- Thermoplastic housing.
- Ergonomic cable handle provides added comfort and ease-of-use when making connections.
- Self-locking swivel hook limits lifeline twisting.
- Impact indicator provides visual indication of fall arrest.
- 3,600 lb. gate reduces chances of accidental disengagement ("roll-out").
- Stainless steel components and anti-ratcheting brake system.

3M™ DBI-SALA® Smart Lock Leading Edge Self-Retracting Lifelines

The 3M™ DBI-SALA® Smart Lock Self-Retracting Lifeline is designed to help increase your productivity and convenience. Significant internal testing was completed to make this product work while reducing the unintentional lockups.

Compared to our existing devices, the new Smart Lock SRL locked up 29% less when tested against 422 work motion profiles.

- Swiveling anchorage and carabiner.
- Built-in handle.
- Magnetic retraction control
- Patent pending dual label system.
- Highly-visible orange energy-absorber cover.

Self-Retracting Lifelines

3M™ DBI-SALA® Nano-Lok™ Edge Self-Retracting Lifeline

• Connector provides 360 degrees of rotation and leaves the D-ring open for rescue or other equipment.
• Impact-resistant housing provides durability.
• Global sharp edge icon makes identification of sharp edge product quick and easy.
• 8 ft. (2.4 m) of 3/16 in. (5 mm) galvanized cable lifeline.
• Backpack design stays tight to the harness and helps evenly distribute the unit’s weights.
• Backpack-style energy absorber and connector work together to help limit forces on both the worker and the impacted edge.

*All versions are 8 ft. in length except tie-back models. Tie-back versions are 9 ft.
3M DBI-SALA® Anchors
for Leading Edge Applications

Anchors Commonly Used in Leading Edge Applications. Compatible with all versions of Ultra-Lok Leading Edge SRL's (15 ft., 30 ft., 55 ft.) and all Smart Lock Leading Edge SRL's (20 ft. & 30 ft.)

2190073
Standing Seam Roof Anchor
- Installs to flat or sloped roofs, providing an SRL anchorage point.
- Four built-in non-penetrating clamps allow for attachment without damaging the roof.
- Slide on the tube legs fit a variety of seam spacings up to 36 in.

2190074
Construction Roof Anchor
- Installs to rebar ring during pre-cast concrete work utilizing built-in ratcheting securement system—no special tools required.
- Dual-use design allows for use as end anchors for a 2-person temporary 3M™ DBI-SALA® Horizontal Lifeline System.
- For use with 3M™ DBI-SALA® Smart Lock SRL (Sold Separately).

2190071
Swiveling Roof Anchor
- Installs to a variety of sloped or flat wood and metal decking roofs to provide an anchorage point for an SRL or a tie-off point.
- Install with included fastener kit: 16 ea. 1/4-14 x 2-1/2 in. self-tapping screws for steel installation and 8 ea. 1/4 x 2-1/2 in. lag screws for wood.
- Secondary D-ring anchor allows for tie-off with lanyard or install a Horizontal Lifeline between two anchors.
Introducing the new 3M™ DBI-SALA® Nano-Lok™ Personal Self-Retracting Lifeline. Our latest version doesn’t just match the performance of the outgoing model—it surpasses it and then some. It’s sleeker with a more compact design. It’s tougher with a longer lasting cover. It’s easier and faster to connect.* All while complying with OSHA’s 1910.140 General Industry 4 ft. fall protection rule and ANSI Z359.14 Class A & B standards.

- 900 lb. average arresting force
- 1,350 lb. maximum arresting force
- Installs 60% faster*
- Inspect easily and quickly
- Nitrile rubber cover lasts 4X longer than outgoing mode
- 4 ft. overhead fall clearance per OSHA 1910 General Industry
- ANSI Class A/B units arrest falls within 24” and limit average arresting forces to 900 lbs.
- Knee-level or higher tie-off
- 310 lb. capacity

*Compared to previous generation.

For ANSI Class B only models, see next page.
3M™ DBI-SALA® Nano-Lok™ Personal Self-Retracting Lifelines, ANSI Class B

What’s a Class B SRL?
Like Class A SRLs, these are OSHA 1926.500 subpart M compliant, but they differ in how quickly they stop a fall (within 54 in. or less), and the subsequent average arrest force on the worker (900 lbs.).

- ANSI Class B device utilizes smart activating brake system to provide 89% fewer unintentional lock-ups*
- Lightweight speed connect system reduces connect and disconnect time by up to 60%*
- Durable nitrile rubber energy absorber cover designed to last 4 times longer*
- 6 ft. fall clearance required on Class B SRLs

3M™ DBI-SALA® Nano-Lok™ Extended Length Self-Retracting Lifelines

3101582
Nano-Lok™ Extended Length Quick-Connect Self-Retracting Lifeline
With Anchor Hook x 11 ft. (3.35 m)

3101588
Nano-Lok™ Extended Length Order Picker Self-Retracting Lifeline
With Snap Hook x 11 ft. (3.35 m)

3101590
Nano-Lok™ Extended Length Quick-Connect Self-Retracting Lifeline
With Aluminum Rebar Hook x 9 ft. (2.74 m)

3101621
Nano-Lok™ Extended Length Twin-Leg Quick-Connect Self-Retracting Lifeline
With Snap Hook x 11 ft. (3.35 m)

3101624
Nano-Lok™ Extended Length Twin-Leg Quick-Connect Self-Retracting Lifeline
With Aluminum Locking Rebar Hooks x 9 ft. (2.74 m)

3101625
Nano-Lok™ Extended Length Twin-Leg Quick-Connect Self-Retracting Lifeline
With Aluminum Rebar Hooks x 9 ft. (2.74 m)

*Additional Models Available, Contact 3M Fall Protection

3M™ DBI-SALA® Nano-Lok™ Connected Order Picker Self-Retracting Lifeline

This innovative Fall Protection system senses a worker’s presence on an order picking vehicle, verifies their tie-off status, and communicates visual and audible alerts in real time to promote situational awareness and self behavior.

- **Connected Sensor Box**
  Overhead unit detects worker’s presence on vehicle
- **Connected Aluminum Carabiner**
  Sensing carabiner detects if it’s connected to worker’s harness D-Ring and if the carabiner gate is closed and locked.

3100273
Nano-Lok™ Connected Order

*Additional Models Available, Contact 3M Fall Protection*
3M™ DBI-SALA® Nano-Lok™ Wrap-Back Self-Retracting Lifelines

Functioning as both a fall protection device and tie-off adapter, it allows safety managers to consolidate multiple equipment capabilities in one versatile solution. The Nano-Lok™ Wrap Back SRL is approved for overhead or foot level tie-off applications.* It connects to beams, rebar walls and other structures that can properly support fall arrest forces—helping protect workers in a wide variety of at-height environments.

- Designed for foot-level anchorage around non-sharp edges
- Wrap back design with specialized Dyneema® web lifeline
- Twin-leg 100% tie-off design
- Built-in pin-style connector for direct attachment to harness
- 8 ft. (2.4 m) of 3/4" (19 mm) wide blue Dyneema® fiber polyester web
- Self-locking snap hook on end of lifeline
- Thermoplastic housing
- Swiveling anchorage loop
- Quick activating speed sensing brake systems
- Integrated backpack style energy absorber
- 3M™ Connected Safety ID (CSID) equipped
- 310 lbs. capacity

3101659 Nano-Lok™ Wrap Back
8 ft. (2.4 m) twin-leg tie-back type lifeline with 3/4 in. (19 mm) wide Dyneema® fiber web and steel rebar hook. Quick connector for harness mounting.

3101653 Nano-Lok™ Wrap Back
8 ft. (2.4 m) twin-leg tie-back type lifelines with 3/4 in. (19 mm) wide Dyneema® fiber web and tie-back snap hook. Quick connector for harness mounting.

3101658 Single Leg

3101655 Nano-Lok™ for Aerial Work Platforms
4.5 ft. (1.4 m) lifeline with 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner. Quick connector for harness mounting.

3101656 Nano-Lok™ for Aerial Work Platforms
3.5 ft. (1.1 m) lifeline with 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner, swiveling anchor loop with 13 in. (35 mm) web extension and aluminum snap hook.

3M™ DBI-SALA® Nano-Lok™ Arc Flash Self-Retracting Lifelines

Designed specifically for utility applications.
- 8 ft. (2.4 m) working length.
- With Nomex®/Kevlar® fiber web lifeline and reinforced edges for improved wear resistance and durability over standard webbing.
- Features an arc flash industry logo to easily identify the product application.
- Arc flash compliant, tested to 40 cal/cm². Meets ASTM F887.

3101655 Nano-Lok™ for Aerial Work Platforms
4.5 ft. (1.4 m) lifeline with 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner. Quick connector for harness mounting.

3101656 Nano-Lok™ for Aerial Work Platforms
3.5 ft. (1.1 m) lifeline with 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner, swiveling anchor loop with 13 in. (35 mm) web extension and aluminum snap hook.
### 3M™ DBI-SALA® Nano-Lok™ Arc Flash Self-Retracting Lifelines

#### 3101526
Nano-Lok™ Arc Flash Self-Retracting Lifeline
3/4 in. (19 mm) Nomex®/Kevlar® fiber webbing and steel snap hook, quick connector for harness mounting x 8 ft. (2.4m).

#### 3101536
Nano-Lok™ Arc Flash Twin-Leg Self-Retracting Lifeline
3/4 in. (19 mm) Nomex®/Kevlar® web and steel rebar hooks, quick connector for harness mounting x 8 ft. (2.4m).

#### 3101575
Nano-Lok™ Arc Flash Self-Retracting Lifeline
3/4 in. (19 mm) Nomex®/Kevlar® fiber webbing and aluminum carabiner, swiveling anchor loop with 13 in. (33mm) web extension with aluminum snap hook x 8 ft. (2.4m). Best seller for bucket truck applications.

#### 3101574
Nano-Lok™ Arc Flash Self-Retracting Lifeline
3/4 in. (19 mm) Nomex®/Kevlar® fiber webbing and web loop, swiveling anchor loop with 13 in. (33mm) web extension with aluminum snap hook x 8 ft. (2.4m).

### Additional Information

3M™ DBI-SALA® Fall Protection 3M.com/FallProtection 800-328-6146 (Opt. 1)
**3M™ DBI-SALA® Nano-Lok™ for Hot Work Use**

Self-Retracting Lifelines

This SRL was tested to 8 calories, ensuring durability in applications like welding, grinding and torching. It is reinforced with Kevlar® fiber to withstand sparks, weld splatter and other high-heat exposure.

- 6 ft. (1.8 m) working length.
- Universal hot work icon to quickly and easily identify hot work product.
- 3M™ Connected Safety ID (CSID) equipped.

3M™ DBI-SALA® Sealed-Blok™ Self-Retracting Lifeline

Grease, dirt and moisture are just part of your job. Keeping them from affecting the performance of your SRL is ours. These sealed SRLs are constructed from heavy-duty, corrosion-resistant materials, and incorporate a patented concept that separates all dynamic components—including the motor spring and brake—from foreign elements.

1. **Carrying handle**
   - Built-in design for transport—certified as secondary fall arrest rated anchorage point.

2. **Galvanized & stainless steel cable**
   - Abrasion resistant and corrosion-resistant lifeline options.

3. **Self-locking swivel hook**
   - Limits lifeline twisting
   - Integrated impact indicator
   - 3,600 lb. gate reduces accidental disengagements ("roll-out")

4. **Fast Line**
   - Provides the user with ability to replace the lifeline in the field.

5. **Pivoting anchorage loop**
   - Centers the load.

6. **Aluminum housing**
   - Provides exceptional strength durability and corrosion resistance.

7. **Aluminum cast cover**
   - Anti-ratcheting design stays locked on rigid and non-rigid (horizontal lifeline) anchors.
   - 420 lb. weight capacity (All non-RSQ models). Higher capacity for operator and tools (option).

Sealed design meets IP68 and IP69K rating.

### 3M™ DBI-SALA® Fast Line Cable Replacement Assemblies

#### 3900105
**Galvanized Cable with Plated Hook**
Fast Line Galvanized Replacement Cable Assembly x 50 ft. (15 m)
- 3900105 50 ft. (15 m)
- 3900108 85 ft. (25.5 m)
- 3900112 130 ft. (39 m)

#### 3900107
**Stainless Steel Cable with Stainless Steel Hook**
Fast Line Stainless Steel Replacement Cable Assembly x 50 ft. (15 m)
- 3900107 50 ft. (15 m)
- 3900111 85 ft. (25.5 m)
- 3900114 130 ft. (39 m)
3M™ DBI-SALA® Ultra-Lok™
Self-Retracting Lifelines

Stainless steel components, an anti-ratcheting brake system and a semi-sealed design.

1. **Top swivel**
   Limits lifeline twisting.

2. **Thermoplastic housing**

3. **Ergonomic cable handle**

4. **Multiple lifeline options**
   Galvanized or stainless steel cable, nylon or Nomex®/Kevlar® web, or Vectran™ rope for ultimate jobsite flexibility.

5. **Self-locking swivel hook**
   Limits lifeline twisting.

6. **Impact indicator**
   Provides visual indication of fall arrest.

7. **3,600 lb. gate**
   Reduces chances of accidental disengagement ("roll-out").
3M™ DBI-SALA® Ultra-Lok™
Self-Retracting Lifelines

Like our Sealed-Blok™, the Ultra-Lok™ Lifeline also extends and retracts, so you can move about freely at normal speeds within a recommended working area. Should a fall occur, a speed-sensing brake system will activate, stopping the fall and reducing the imposed forces to 900 lbs. (4 kN) AAF.

3504500
Ultra-Lok™ Leading Edge SRL
This design incorporates larger diameter 30 ft. (9.1 m) of 7/32 in. cable and an in-line shock absorber for the demands of leading edge applications.

3504505
Ultra-Lok™ RSQ SRL
50 ft. RSQ Automatic Rescue/Descent SRL with 3/16 in. (5 mm) galvanized steel wire rope with swivel snap hook.

3504480
Ultra-Lok™ Self-Retracting Lifeline
1/4” (6 mm) Vectran Synthetic Rope with Swivel Snap Hook.

3501102
Ultra-Lok™ Retrieval SRL
50 ft. (15.2 m) of 3/16 in. (5 mm) galvanized steel wire rope with emergency retrieval winch, mounting bracket, swiveling snap hook and anchorage carabiner.

Other Models available, contact 3M Fall Protection
3M™ DBI-SALA™ Smart Lock Self-Retracting Lifelines

1. Swiveling anchorage & carabiner included
2. Built-in handle
   Designed for easy transport and support during overhead installation.
3. Magnetic retraction control
   The lifeline rewinds at an evenly controlled pace, helping reduce the possibility for harm to people or equipment (compared to solutions with gear-based retraction).
4. Patent pending dual label system
   An extra label stored in the bumper on the lifeline allows users to easily access critical asset information and keeps it protected from damage to help reduce cost of ownership.
5. Highly-visible orange energy-absorber cover
   Identifies product as meeting Leading Edge standards and allows you to more easily confirm that workers are tied off (Horizontal models).

1,350 lb. Maximum Arresting Force (MAF)
420 lb. weight capacity

Horizontal
(Leading Edge)

29%

Fewer sudden stops
Enhanced testing programs were performed during the design and qualification of this product to reduce unintentional lockups. Compared to our existing devices the new Smart Lock SRL locked up 29% less when tested against 422 work motion profiles.

Vertical
(Overhead)

As low as 4 ft. fall clearance

Complies with OSHA 1910.140 General Industry
Helps protect general industry workers up to 310 lbs. from falls when working with as little as 4 ft. of fall clearance.

Learn more about the 3M™ DBI-SALA® Smart Lock Leading Edge SRL and Modular Connector. See page 67.
We’re advancing the versatility of 3M™ DBI-SALA® Nano-Lok™ SRLs. Available in 9 ft., 11 ft., 15 ft. and now 20 ft. lengths, the family of Nano-Lok™ SRLs combines fall protection with ease-of-use and comfort for even more applications.

- Swiveling anchorage loop limits lifeline twisting.
- Thermoplastic housing designed to withstand demanding worksites.
- As low as 6 ft. of required fall clearance.
- Dyneema® Fiber and Polyester Web Lifeline reduces overall weight and the retractable design provides freedom of movement.
- External energy absorber maintains safe fall arrest forces for users (and tools) up to 420 lbs. (190 kg)
- Impact indicator provides a visual alert that the SRL has been involved in a fall.

**Arc Flash**
Meeting industry standards.

Choosing a lanyard
Look for these features when selecting a lanyard.

A. Webbing
Choose your webbing based on the type of conditions you work in. Options include Nomex®/Kevlar® with fiber, polyurethane-coated and cable.

B. Impact indicators
Impact indicators let you know if a shock absorber has been involved in a fall, so you can remove it from service.

C. Connector/hook
3M™ DBI-SALA® Snap Hooks allow one-handed use and won’t pinch thumbs or fingers.

D. Length
The standard lanyard length is 6 ft (1.8 m), but other lengths are available.

E. Shock absorber
Most shock absorbers keep forces below 900 lbs. (4 kN) AFF and are available in pack or tubular styles.

Types of 3M™ DBI-SALA® Snap Hooks
All of our lanyards feature 3,600 lb. (16 kN) rated gates.

**3M™ DBI-SALA® Shock-Absorbing Lanyards**

### Types of Lanyards

**Pack-Style Shock-Absorbing Lanyards**
These lanyards dissipate energy, limiting the forces on the body in a fall arrest event.

**Tubular-Style Shock-Absorbing Lanyards**
These lanyards are available in both fixed length and “stretch” style designs.

**Twin-Leg Lanyards**
Twin-Leg lanyards provide 100% tie-off, allowing users to stay protected when changing locations.

**Positioning Lanyards**
Designed without shock absorbers for positioning or restraint applications only.

**Tie-Back Lanyards**
Tie-Back lanyards act as both a connecting means and an anchorage connector when a qualified anchorage connector is not available.

**Lanyards for Arc Flash and Hot Work Use**
These lanyards are designed with Kevlar® fiber for use in high temperatures or applications requiring arc flash protection.

**Lanyards for Foot-Level Tie-Off**
Used at the feet, these lanyards allow a 12 ft. (3.7 m) free fall and maintain forces below 1,800 lbs. (8 kN) MAF.

**Fall-Restricting Device**
Clinches around a wood pole during “cut outs” to help prevent users from falling and allowing them to regain footing.

---

### 3M™ DBI-SALA® ShockWave™ 2 Shock-Absorbing Lanyards

Avoid trips and snags with lanyards that expand and contract (6 ft.-4-1/2 ft.) in reaction to movement. They have a built-in impact indicator and limit the average fall arresting forces to 900 lbs. (4 kN).

### Rescue Lanyards

These lanyards incorporate an integrated D-ring to help facilitate the rescue of a fallen worker.

### Arc Flash Lanyards

- Constructed from materials, these lanyards have Nomex®/Kevlar® fiber and are great for high heat environments or for electrical work when arc flash is a concern. Meets arc requirements of ASTM F887.

### Tie-Back Lanyards

- When a qualified anchorage connector is not available, a tie-back lanyard acts as both a connecting means and an anchorage connector.

Engineered for sharp edges, these lanyards incorporate edge certified cable construction and offer Force™ 2 foot-level tie-off ability (for maximum 12 ft. free fall).
Lanyards without shock absorbers, such as rope or web lanyards are designed for positioning or restraint applications.

Get in easily. Get out safely.

Our extensive line of high quality, rugged rescue and retrieval systems are used to rescue workers in confined spaces.

What to look for in a confined space rescue system:

**Ease-of-use**
Systems should be easy to set up, use and dismantle.

**Mechanical systems**
Lifeline types and length are just a few of the options you need to consider.

**Durability**
Components must be made from quality materials that can endure rough handling and harsh environments.

**Versatility**
Systems should be adjustable and adaptable to extreme environments. Modular systems allow you to add to your system over time.

**Strength**
Systems must be rated for your application. Look for maximum strength with minimal weight.

**Portability**
Systems should be lightweight and easy to transport, set up and store.
Engineered with aluminum, 3M™ DBI-SALA® Hoist Systems are adjustable and extendable to meet the specific needs of your job site.

8530352
4-in-1 Davit Guard System
Provides a basic hoist and a passive restraint guardrail system protecting companion workers and bystanders. It offers ample room for worker entry and maneuvering while keeping the confined space opening secure. A standard tie-off point provides a convenient 5,000 lb. (22 kN) anchor point for fall arrest devices where required.
Variable offset davits are designed for use where multiple offset masts are required. The variable offset masts may be equipped with front mounted and/or back mounted winches or Self-Retracting Lifelines (SRLs) and feature an anchor point rated up to 5,000 lbs. (22 kN). For applications with overhead clearance restrictions, the adjustable height of the variable offset masts can eliminate the need for custom length masts and mast extensions. Quick-connect/release pins allow for fast and easy setup, dismantle and transport.

1. **Winch**
   Davits can be equipped with both primary and secondary (back-up) mechanical devices for added flexibility. Retrieval winches can be used in conjunction with a retrieval SRL or fall protection system to raise and lower personnel and equipment.

2. **Quick-Release Mounting Bracket**
   Simple detent-style winch mounting brackets. (See page 110)

3. **Retrieval SRL**
   Retrieval SRLs offer fall protection as well as emergency retrieval for non-entry rescue.

4. **Lower Mast Extensions**
   Allow the user to adjust the overall anchorage height of the system.

5. **Base Options**
   Several portable and fixed base options are available for complete versatility.

6. **Variable Offset Mast**
   Adjustable length of davit ensures lifelines are always centered over confined space.

7. **Built-In Pulleys**
   Route lifelines of two mechanical devices for smooth, efficient operation.

8. **Fall Arrest Anchorage**
   Up to a 5,000 lb. (22 kN) rated anchor point for fall arrest device.

9. **Adjustable Height**
   Eliminates the need for custom length masts and extensions.
8518000
5-Piece Hoist System
Davit arm and base system includes 11.5 in.–27.5 in. (29.2 cm–69.8 cm) Adjustable Offset Upper Mast (8518001), 33 in. (83.8 cm) Lightweight Lower Mast (8518002), and 3-Piece Lightweight Base (8518005). Includes winch mounting bracket. Order winch and Self-Retracting Lifeline separately. Weight: 100 lbs. (45.5 kg)

### Offset Davit Masts & Lower Mast Extensions

Customize the height of these davit masts with up to two Lower Mast Extensions. Custom lengths are available—call us for details.

#### 8518001
11.5 in.–27.5 in. Adjustable Offset Davit Mast
(Includes winch mount bracket.)
Combine with up to two lower mast extensions to increase anchorage height. Combined extension length cannot exceed 90 in. (228 cm).

#### 8518006
23.5 in.–42.5 in. Adjustable Offset Davit Mast
(Includes winch mount bracket.)
Combine with up to two lower mast extensions to increase anchorage height. Combined extension length cannot exceed 78 in. (198 cm).

#### 8513330
Carrying Bag
Carrying bag with protective plastic liner for one piece davit arm (8518382–8518387) and 10 ft. aluminum tripod (8513159).

#### 8513564
Bag with protective plastic liner for Adjustable Offset Davit Mast, with Lower Mast Extension.
3M™ DBI-SALA® Fixed Bases

Fixed bases allow for easier setup and teardown, making them ideal for work areas where a base can be permanently installed to an existing structure. All bases come with PVC sleeve liners.

8512831 Center Mount Sleeve
Zinc-Plated
Zinc-plated mild steel construction. Mounts to concrete or steel structure. Weight: 13 lbs. (5.9 kg)
8516563 304 Stainless steel construction. Mounts to concrete or steel structure.

8518348 Wall Mount Sleeve 304 Stainless Steel
304 stainless steel construction. Compact design mounts to vertical concrete or steel structures. Weight: 12 lbs. (5.5 kg)
8516191 Wall Mount Sleeve, zinc-plated mild steel construction.
### 3M™ DBI-SALA® Fixed Bases

#### 8510109 Core Mount Sleeve
Zinc-plated mild steel construction. Designed for slip-in installation into 4 in. (10.1 cm) core hole in concrete or in an existing steel structure. Weight: 8 lbs. (3.6 kg)

#### 8510316 Floor Mount Sleeve
Mild steel construction. Recessed fastener pockets allow for bolt-in installation into existing concrete or steel structure. Flush mount design eliminates trip hazards when not in use. Weight: 21 lbs. (9.5 kg)

#### 8510057 Offset Floor Mount Sleeve
Zinc-plated mild steel construction. Mounts to horizontal concrete or steel structure. Offset design allows for maximum reach of the mast being used. Weight: 25 lbs. (11.3 kg)

#### 8515162 Deck Mount Sleeve
Zinc-plated mild steel construction. Designed to slip into a 4 in. (10.1 cm) hole in existing flooring. Flush mount design eliminates trip hazards when not in use. Comes with plastic stopper and mounting hardware—mounts to thicknesses from 1/4 in.–2 in. (6.4 mm–50.8 mm). Weight: 17 lbs. (7.7 kg)

#### 8510311 Flush Floor Mount Sleeve
Mild steel construction. Comes with pins for fresh concrete anchors for new construction or renovation. Flush mount design eliminates trip hazards when not in use. Weight: 21 lbs. (9.5 kg)

#### 8510827 Heavy-Duty Sleeve Cap
Stainless steel construction. Used with permanent mounted sleeves when installed in high traffic or other severe service locations. Weight: 1.2 lbs. (0.54 kg)
**3M™ DBI-SALA® Portable Bases**

Portable Bases work with a variety of Davit Arm and Mast Extensions. They’re ideal when you need to move and access various confined space areas. Bases are lightweight, easy to transport, set up and use.

### 8518005

**3-Piece Portable Base**
Adjustable base for 27.5 in. (69.8 cm) maximum offset davit mast.

### 8518008

3-Piece Portable Base.
Adjustable base for 42.5 in. (108 cm) maximum offset davit mast.

### 8510323

**Barrel Mount Sleeve with 3.5 in. Opening**
Zinc-plated mild steel construction. Eight independent clamping screws allow temporary installations over edges of shoring cans, walls and other structures. Comes with PVC inner liner. Custom fit openings available.

### 8513565

**Carrying Bag**
Bag with protective plastic liner for 3-Piece Davit Base (8518005).

### 8510568

**Forklift Basket**
Designed to convert your forklift into a versatile confined space and fall arrest work platform. Add a davit mast and winch/ Self-Retracting Lifeline to the basket and you’re ready to go. Lightweight aluminum construction and tool-free assembly simplifies setup, transport and storage. Durable powder coated finish with anti-slip finish on walking surfaces. Includes spring-loaded gate. Weight: 215 lbs. (98 kg)

### 8512285

**Adjustable Barrel Mount Sleeve**
Designed for shoring, wall and parapet applications. Standard unit accommodates wall thicknesses up to a maximum of 24 in. (60.9 cm), with shorter or longer adjustment tubes available on request. Anodized, welded aluminum with zinc-plated steel hardware with inner sleeve.

### 8510715

Adjustable Barrel Mount Sleeve for 0 in.–12 in. opening.

### 8516088

Adjustable Barrel Mount Sleeve for 42 in. maximum opening.
**3M™ DBI-SALA® Portable Bases**

**8510501**  
**3M™ DBI-SALA® Manhole Collars**  
17.5 in. (44.5 cm) Manhole Collar fits 18 in.–20 in. (45.7 cm–50.8 cm) diameter.  
Provides a Portable Davit Base by simply fitting within manhole opening.  
Powder coated aluminum construction with PVC sleeve liner.  
8510520  19.5 in. (49.5 cm) Manhole Collar fits 20 in.–22 in. (50.8 cm–55.8 cm) diameter.  
8510457  21.5 in. (54.6 cm) Manhole Collar fits 22 in.–24 in. (55.8 cm–60.9 cm) diameter.  
8510163  23.5 in. (59.7 cm) Manhole Collar fits 24 in.–26 in. (60.9 cm–66 cm) diameter.  
8510633  25.5 in. (64.7 cm) Manhole Collar fits 26 in.–28 in. (66 cm–71.1 cm) diameter.  
8510632  27.5 in. (69.8 cm) Manhole Collar fits 28 in.–30 in. (71.1 cm–76.2 cm) diameter.  
8510546  29.5 in. (74.9 cm) Manhole Collar fits 30 in.–32 in. (76.2 cm–81.2 cm) diameter.  
8530312  31.5 in. (80 cm) Manhole Collar fits 32 in.–34 in. (81.3 cm–86.4 cm) diameter.  
8512994  33.5 in. (83.1 cm) Manhole Collar fits 34 in.–36 in. (86.3 cm–91.4 cm) diameter.  

**8510140**  
**Vehicle Hitch Mount Sleeve**  
Designed to install into a 2 in. (51 mm) hitch receiver on an attendant vehicle to provide a portable anchor point for confined space entry, rescue and fall arrest systems. Assembly for a maximum 27.5 in. (69.8 cm) Offset Davit Mast.  
8514461  Assembly for a maximum 42.5 in. (108 cm) Offset Davit Mast.  

**Vehicle Hitch Sleeve Extensions**  
A maximum of one extension can be used with a hitch mount and a bumper attachment.  
8514503  2 ft. (0.61 m) Vehicle hitch mount sleeve extension. Weight: 17 lbs. (7.7 kg)  
8512829  4 ft. (1.21 m) Vehicle hitch mount sleeve extension. Weight: 27.8 lbs. (12.6 kg)  
8511384  6 ft. (1.83 m) Vehicle hitch mount sleeve extension. Weight: 39 lbs. (17.6 kg)  

**8511401**  
**Universal Joint Assembly**  
Installs between the Hitch Mount Sleeve (8510140) or extension and the vehicle to compensate for uneven ground conditions. Weight: 10 lbs. (4.5 kg)
3M™ DBI-SALA® Counterweight Systems

Counterweight Systems are composed of a central base unit to accommodate a variety of anchoring options, positioning and adjustment legs, and extension assemblies.

8512894
Counterweight System
Counterweight system base with pole leg assembly.
Weight: 199 lbs. (90.2 kg)
Counterweight requirements determined by application. Contact customer service to order.

8520775
Mobile Counterweighted Cart Base
Ideal for areas that require access near a leading edge or into large tanks. System comes complete with counterweight cart, 36 in. (91.4 cm) inner extension tube, center section, and two outrigger screw assemblies. System counterweighted by 50 lb. (22.7 kg) weight plates. (Weight plates, davit mast and winch not included—order separately.)

8530088
Portable Catwalk Clamping Base
Designed to secure to 36 in. (91.4 cm) wide walkways. Ideal for areas that require access off a mezzanine or walkway. System comes complete with catwalk hook, 16 in. (40.6 cm) inner extension tube, center section and two outrigger screw assemblies. Other models available to accommodate different widths of walkways. (Davit mast and winch not included—order separately. More options available.)

8530256
Portable Anchor Point Base
Ideal for areas that require access over a leading edge. System comes complete with U-bolt anchor point to attach to secondary fixed anchor, 36 in. (91.4 cm) inner extension tube, center section, and two outrigger screw assemblies. System requires a 5,000 lb. (22 kN) anchorage point to be tied down to. (Davit mast and winch not included—order separately.)
**3M™ DBI-SALA® Tripods**

Constructed of lightweight tubular aluminum with a rugged steel head assembly. Quick-release pins positively locate components at all adjustment points for tool-free setup and adjustment.

1. **Mechanical Devices**
   Supports up to three winches or SRLs for complete flexibility.

2. **Quick-Connect Bracket**
   Fast and easy attachment of mechanical devices.

3. **Safety Chain**
   Added support in demanding applications.

4. **Top Mounted Pulley System**
   Mount up to three pulleys to route mechanical device lifelines.

5. **Secondary Anchor Point**
   5,000 lb. (22 kN) anchor point for secondary fall arrest system.

6. **Aluminum Construction**
   Lightweight and durable for ease-of-use.

---

**8000000**
3M™ DBI-SALA® 7 ft. Aluminum Tripod
- Lightweight, durable aluminum construction.
- Telescoping adjustable locking legs.
- Built-in pulley system.
- 5,000 lb. (22 kN) built-in head mounted anchor point.
- Capacity: 350 lbs. (159 kg)

8000010 9 ft. Tripod

Winch and SRL not included—order separately.

**8512292**
Winch/SRL Mounting Bracket for Tripod (8513159)

8513158
3M™ DBI-SALA® UCT-300 7 ft. Tripod
- Lightweight, durable aluminum construction.
- Telescoping adjustable locking legs.
- Built-in pulley system—can accommodate up to three pulleys.
- 5,000 lb. (22 kN) built-in head mounted anchor point.
- Capacity: 450 lbs. (204 kg)

8513159 10 ft. (3 m) Tripod

Winch and SRL not included—order separately.

**8513330**
Carrying Bag
For 10 ft. (3 m) Tripod with protective plastic liner (8513159).

8513329 For 7 ft. (2.1 m) tripod with protective plastic liner (8513158)

9503094 For 7 ft. (2.1 m) tripod (8000000)

9503095 For 9 ft. (2.7 m) tripod (8000010)
3M™ DBI-SALA® Tripods

**3M™ DBI-SALA® Pole Hoist System**

The pole hoist attaches with a carabiner on the universal bracket to a suitable anchor point. It has a unique swivel head that rotates 360 degrees, providing flexibility in both vertical and horizontal confined space entries.

**8520777**
Clamp-On Anchor for Pole Hoists
Designed to secure to a vertical or horizontal flange up to 6 in. (15.2 cm) thick and provide an anchorage point to connect a pole hoist device to.

**2104550**
Steel Anchor Plate with D-Ring
This plate anchor offers a compact, reliable attachment to 3/8 in.–1 in. thick plate steel for connecting your lanyard, vertical lifeline system or self-retracting lifeline.

**6320008**
Web Sling
6,000 lb. rated, 1 ft. (30.5 cm) long; 3/4 ft (19.1 mm) wide Kevlar® web anchor sling.

**8530252**
Extendable Pole Hoist
4 ft.–7 ft. (1.2 m–2.1 m)
Weight: 12 lbs. (5.4 kg)
Extension with swivel head and winch mounting bracket, T-bar leg assembly and hardware/fasteners.

**8530253**
Extendable Pole Hoist
6 ft.–10 ft. (1.8 m–3 m)
Weight: 14 lbs. (6.4 kg)

**8501330**
Carrying Bag
For 6 ft.–10 ft. pole hoist.

**8513329**
Carrying Bag for 4 ft.–7 ft. pole hoist.
3M™ DBI-SALA® Portable Fall Arrest Posts

Our portable fall arrest post allows for up to three workers on top of transformers or other types of vertical platforms with potential fall hazards.

8516693 Rescue Davit Arm for Portable Fall Arrest Post

The optional rescue davit arm assembles to our portable fall arrest post, providing rescue and material handling capabilities.

8516691 Portable Fall Arrest Post

- Three independent swiveling tie-off points.
- 360 degrees of protection for three workers.
- Telescopic design; 32.75 in.–46 in.–57.25 in. (83.2 cm–116.8 cm–145.4 cm)
- Aluminum construction.

8516996 Uni-Anchor Fall Arrest Post

The 14 ft. (4.3 m) uni-anchor fall arrest post mounts using uni-anchor plates and extends up to 14 ft. (4.3 m) to provide a 1-man-rated fall arrest anchor point. Weight: 71 lbs. (32.2 kg)

Anchor Bases for Portable Fall Arrest Post

8517412 Bare Steel Uni-Anchor with Tie-Off Anchors

For closed environments without chemical or moisture exposure.

8510816 Weld-On Mounting Plate

Unplated mild steel construction.

8517413 Incline Adapter with Tie-Off Anchor

Permanently weld to inclined surfaces.

8519819 Base Concrete Anchor

Bolt-on anchor plate for concrete or steel surfaces.

Accessories

8516692 14 in. Anchor Post Extension

Provides option to tie-off one worker at an increased height of 68.5 in. (174 cm). Weight: 5 lbs. (2.2 kg)

8517565 Carrying Bag

Heavy-duty carrying bag for Portable Fall Arrest Post (8516691) or Rescue Davit for Fall Arrest Post (8516693).
Retrieving incapacitated workers and bringing them to safety makes the mechanical device one of the most critical parts of your rescue system. In some situations, you may need a secondary or backup system.

1 Digital Winches
- Man rated 450 lb. (201 kg) capacity.
- Digital usage indicator tracks drum revolutions to determine service intervals.
- Triple redundant braking system.
- Sealed bearings at all contact points.

2 Retrieval Sealed-Blok™ Self-Retracting Lifeline
- Ideal for secondary or backup.
- Man rated 420 lb. (190 kg) capacity.
- Fall arrest system limits forces to 900 lbs. (4 kN)
- Built-in emergency retrieval winch.
- Input handle with primary brake.

3M™ DBI-SALA® Salalift™ II Winches
- Man rated 350 lb. (159 kg) capacity.
- Overload clutch.
- Gear ratio of 6:1.
- Free-wheel mode.
- Shielded ball bearings.

1001210
Retrieval Wristlets

For upper and lower masts. Ideal for narrow extractions. D-ring at end x 2 ft. (0.6 m).

1001220
Attached with an O-ring at one end x 18 in. (0.46 m).

1231460
Y-Lanyard

Rescue/retrieval design ideal for use with harness incorporating D-rings. D-ring at center x 2 ft. (0.6 m).

1231470
Without spreader bar

8517567
Padded Carrying Bag

For digital winch.
3M™ DBI-SALA® Retrieval Self-Retracting Lifelines

3M™ DBI-SALA® Sealed-Blok™ Self-Retracting Lifelines with Retrieval incorporate a concept that separates all dynamic components, including the motor spring and break, from foreign elements such as grease, moisture and dirt. The sealed design meets IP69K rating.

- Available with RSQ Dual-Mode Design—allows users to select either standard fall arrest mode or automatic descent mode.
- Available lengths ranging from 30 ft. (9.1 m) to 175 ft. (53.3 m).
- IP69K Sealed Rating.

34001025
Mounting Bracket for Sealed-Blok™ Retrieval SRL
Fits most sizes of Sealed-Blok™ Retrieval SRL.
Work at height without worrying about hanging in your harness for an extended period of time after an arrested fall event. Instead of waiting for help, lower yourself to safety with the 3M™ DBI-SALA® Self-Rescue Device.

1. **Easily Accessible Primary Release Cord**
2. **Easy-Link SRL Adapter**
   A connection point for your lanyards or personal SRLs.
3. **Molded Padding**
   Protects the bag from wear and tear.
4. **Color-Coded and Reflective Elements**
   Provides greater visibility.
5. **Assisted-Rescue and 3M™ DBI-SALA® Rescue Pole**
   Allows for remote access and deployment by a colleague.
6. **50- and 100-Foot Lengths**
   More flexibility and freedom to work at height.
7. **30 Foot Training Version**
   (See next page).

**Virtually Universal Attachment**
The Self-Rescue Device retrofits to virtually any safety harness.

**Sealed Descent Device and Rope Spool**
3M™ DBI-SALA® Self-Rescue Device

3320031  
Self-Rescue 100  
Height: 19 in., Width: 7 in.  
Depth: 2.5 in., 100 ft. of 5.5 mm rope.

3320030  
Self-Rescue 50  
Height: 19 in., Width: 7 in.  
Depth: 2.5 in., 50 ft. of 5.5 mm rope.

3320037  
Self-Rescue Training Device  
This 30-foot trainer device simulates a realistic fall rescue experience, allowing you to educate your team on the use of the product. It’s easy to rewind the rope on-site, so you can train your team up to 20 times before recertification of the device will be required.  
Height: 19 in., Width: 7 in.  
Depth: 2.5 in., 30 ft. of 5.5 mm rope.

8900299  
Rescue Pole  
Kit includes bag, rescue pole, carabiner and tagline.  
Bag length: 28.5 in.  
Width: 6 in.  
Depth: 2 in.  
Weight: 2 lbs.  
Pole extends to 8 ft. 8 in.
Work and rescue with the same equipment with the built-in rescue operation of our dual-mode descent technology.

**Fall arrest mode**
A speed-sensing brake stops the fall, reduces forces imposed on the user to safe levels, and allows for assisted rescue via hand, by pole, or a traditional assisted rescue operation.

**Automatic descent mode**
A speed-sensing brake stops the fall, and a centrifugal brake instantly activates to lower the user at a controlled speed to the next level or ground.

Sealed-Blok™ RSQ Self-Retracting Lifelines
Stainless steel wire rope with swivel snap hook, RSQ dual-mode, anchorage carabiner, 4 ft. (1.2 m) cable tie-off adapter.
- 3400932 50 ft. (15.23 m)
- 3400886 85 ft. (25.5 m)
- 3400991 130 ft. (39 m)

Also available with galvanized cable and snap hook, please contact 3M Fall Protection.

Ultra-Lok™ RSQ Self-Retracting Lifelines
50 ft. (15.2 m) of 3/16 in. (5 mm) wire rope with swivel snap hook and RSQ dual-mode.
- 3504550 Galvanized Steel Wire Rope
- 3504552 Stainless Steel Wire Rope
1 Drill Adapter
Provides a mechanical option to raise a victim.

2 Cast Aluminum Housing

3 Bi-Directional Hub
Brings one hook up as the other goes down, for immediate use after each descent.

4 Anchorage

5 Integrated Rope Ears
Greater descent speed control in assisted rescues.

6 Dual Brakes
Added security, safety and peace of mind.

7 Durable Rope
3/8 in. (9.5 mm) Static Kernmantle Rope.

8 Lifeline Hook
Patented Self-Locking Snap Hook.

Multiple Length Options
Lengths between 50 ft. (15 m) and 500 ft. (152 m)

Two-Person Capacity
Can be used from heights up to 1,640 ft. (500 m) for one user at 310 lbs. (141 kg) or 575 ft. (175 m) for two users totaling 620 lbs. (282 kg)

Optional Ladder Bracket
Sold separately—3320014.
3M™ DBI-SALA® Rollgliss™
R550 Rescue Units
Includes carabiner (two), 4 ft. (1.22 m) anchor sling and rope bag.

3M™ DBI-SALA® Rollgliss™ R350
Rescue and Descent Positioning Device

8902004
Rollgliss™ R350 Rescue System
50 ft. travel/200 ft. of 3/8 in. rope (15.2 m/61 m), 3:1 ratio with pulleys, rope control device, anchor strap, carabiner and carrying bag.

8902006
Rollgliss™ R350 Rescue System
100 ft. travel/400 ft. of 3/8 in. rope (30.5 m/122 m), 3:1 ratio with pulleys, rope control device, anchor strap, carabiner and carrying bag.

Other lengths available in 10 ft. (3 m) increments. Accessories including 2:1, 4:1 and 5:1 pulleys are available.

Rollgliss™ Rescue Positioning Device
Service buildings, bridges and dams with this versatile rescue positioning device. It features a speed-sensing lock that allows you to manually lock off the device once you reach a work level. It serves both as a rescue system and has features for raising, lowering and positioning during normal work activities.

- Pre-rigged for quick and easy installation and use.
- No special tools, power source or extensive skills needed.
- Built-in brake.
- Lock-out mechanism allows user to stop/start anywhere.

3602050
Rollgliss™ Rescue Positioning Device
50 ft. travel/260 ft. of 3/8 in. rope (15.25 m/79.3 m), 4:1 ratio with pulleys, rope anchor straps, two carabiners and carrying bag.

3602100 100 ft. travel/510 ft. (30.5 m/155.5 m)

3M™ DBI-SALA® Rollgliss™ Descender
Make a quick and safe escape. Either vertical or sloped descent models are available to provide complete versatility and flexibility for any job site or work environment.

Sloped low speed models also include linkage, guide cable sleeve and suspension bars. Sloped high speed models include linkage, braking trolley and suspension bars.

3M™ DBI-SALA® Fall Protection 3M.com/FallProtection 800-328-6146 (Opt. 1)
3M™ DBI-SALA®
Rollgliss™ Systems

8900292
Rollgliss™ R250 Rescue Kit
Enables the rescuer to remove a person from danger without putting themselves at risk by descending to them.
• 33 ft. (10 m) travel length.
• Transported in backpack-style bags.
8900293  Rollgliss™ Rescue Kit with 66 ft. (20 m) travel length.
8900294  Rollgliss™ Rescue Kit with 99 ft. (30 m) travel length.

8516294
Rollgliss™ Rescue Ladder
Provides a way to assist rescue after a fall has occurred. It can be anchored to a structure and dropped to the victim, so they can climb up or down to safety.
• Available in 8 ft. (2.4 m) sections.
• Extra sections can be added.
• Includes three carabiners for attachment.
• For use with Rollgliss™ Rescue Ladder Anchor (8516316).

3601490
Rollgliss™ Sealed Tension Limiter
Attaches to man-riding system in-line between the person and the raising/lowering line to warn operator and limit forces on an entangled worker.

8516316
Rollgliss™ Rescue Ladder Anchor
For mounting rescue ladder to a davit arm or single anchorage point.
• For use with Rollgliss™ Rescue Ladder (8516294).

Always use a separate back-up fall protection device with this system.
Protect your people. 
Protect your business.

All around the world, we bring expertise to education development, delivery and management. Our training focuses on education, knowledge and principles. No matter your location or industry, application, gear or requirement, you and your workers will benefit from our content and delivery methodologies.

Our vision:
Training that protects people, improves lives and enhances productivity.

Our mission is ensuring every single worker we train receives the critical knowledge and skill development they need for their industry in a way that's relatable and understandable to them.

Our instructors use our structured curriculum—with their individual style—and your situations and environment to create the best overall experience possible.
What’s the 3M difference?

There’s a broad spectrum of safety training offerings, so it’s critical to dig deeper to ensure that you get the quality up-to-date training that you require. Here’s what you can expect with 3M Safety Training:

Dedicated Instructors

It’s not enough to just know the rules or know the gear. Our instructors have strong technical, industry and teaching backgrounds so they know how to make training knowledge real and relevant to each person they train.

Instructor-Led Courses

Fall protection. Confined spaces. Rescue. Just about anywhere the job takes you, we’ve got relevant courses that educate on the standards, practical applications and hands-on exercises to make it all “stick” with students.

Certified Instructor Program

For some organizations, it’s more sensible to “train a new trainer,” so you can invest in a dedicated, trained employee and have the ability to continuously train employees throughout the year on an as-needed basis.

Regulatory Standards Compliance

We don’t just follow the rules—some of our team actively advise and contribute to the development of them. Our technical understanding and adherence to all relevant safety standards in every region allows us to help guide and clarify them for you and your team.

World-Class Training Centers, On-Site Delivery, or Virtual Instructor-Led Training

With dedicated training facilities across the U.S. and Canada, to virtual studios that deliver select programs with virtual instructor-led training, as well as on-site instructor-led training capabilities, 3M Safety Training is right where you need it to be.

Broad Employee Appeal

As students of science, we never stop learning—and you shouldn’t either. Whether you’re upper management, a foreman, supervisor, safety specialist or front line worker, we have training solutions that can teach you valuable insights you won’t soon find anywhere else.

Ready for training with true value?

Visit 3M.com/SafetyTraining to learn more.
Aiming for a zero-drop policy.

From construction sites to oil rigs, 3M™ DBI-SALA® Fall Protection for Tools helps work environments stay safe by reducing falling object incidents that can result in personal injury, equipment damage, and tool loss.

ANSI/ISEA 121-2018 Certified and tested.

Our drop prevention solutions are designed with the craft in mind, and are third-party tested in the harshest possible conditions—extreme heat, cold, moisture, corrosion and abrasion. We conduct dynamic and static strength tests, both in the field and in our ISO 9001-certified manufacturing facilities to ensure you get high quality and reliable fall protection for tools.

Protecting workers takes more than just keeping them from falling.

From construction sites to oil rigs, 3M™ DBI-SALA® Fall Protection for Tools helps work environments stay safe by reducing falling object incidents that can result in personal injury, equipment damage, and tool loss.

ANSI/ISEA 121-2018
D-Rings
- D-rings can be attached to tools under 5 lb (2.3 kg) or 2 lb (0.9 kg) using our Quick-Wrap Tape (see page 47).
- Dual D-rings allow for 100% tool tie-off during tool transfers.

Quick-Wrap Tape
- 1" (2.5 cm) wide tape conforms to the shape of whatever it is applied to.
- Used with our D-Rings and Tool Cinch Attachments to create tethering points on tools.
- Made from a self-fusing silicone rubber that leaves no adhesive or residue behind.
- Inner fiberglass webbing increases the strength of the tape and makes the tape resistant to sharp objects.

1500009
D-Ring Cord

- Cinches to tools weighing up to 5 lb (2.3 kg).
- Pass the loop end of a D-Ring Cord through a pre-drilled hole or closed handle to create an attachment point.
- Comes in a pack of 10.
**Bungee Tethers**

Our bungee tethers are third-party load rated and thoughtfully designed to prevent dropped objects.

**Coil Tethers**

Easy to clean and out of the way—exactly what a tether should be. The lightweight vinyl construction and compact design of our Coil Tethers makes them an ideal alternative to classic bungee tethers.

**1500159**

Hook2Hook Coil Tether with Swivel
- Compact design stays close to the body
- 5 lb (2.3 kg) load rating

**1500065**

Hook2QuickRing Coil Tether with Tail
- Use with hammers and other long-handled tools
- Available as a combo with our Hammer Holster
- 2 lb. (0.9 kg) load rating

**1500178**

Hard Hat Tether
- Simple installation and removal
- Patented clip holds stronger when force is applied to it
- 4 lb. (1.8 kg) load rating

**3M™ DBI-SALA® Tool Lanyards**

**1500050**

Medium-Duty Hook2Loop Lanyard
- Features an aluminum double-action twist-lock carabiner to help prevent accidental openings
- Works well with medium-duty tool cinch
- 35 lb (15.9 kg) load rating
- 72” (182.9 cm) length

**1500052**

Heavy-Duty Hook2Rail Lanyard
- Features an aluminum double-action twist-lock carabiner to help prevent accidental openings
- Large double-action twist-lock rail carabiner
- Works well with heavy-duty tool cinch
- 80 lb (36.3 kg) load rating
- 72” (182.9 cm) length
**3M™ DBI-SALA® Single and Dual Tool Holsters**

Single and Dual Tool Holsters are equipped with D-rings that are load rated for 5 lb (2.3 kg).

Several variants of these holsters come with Retractors (indicated below). Retractors are load rated for 1-1/2 lb (0.7 kg).

Single and dual tool holsters feature High-Visibility Reflectors and the Magnetic Tool Staging System.

A bottom drain vent allows the holster to perform even in wet conditions.

**1500098**
Tape Measure Holster with Retractor

- Designed to be used with a tape measure, or the optional tape measure sleeve, allowing tape measures to be safely tethered and holstered.
- Includes a Retractor.
- The tape measure sleeve conforms to the size of most tape measures.
- Features High-Visibility Reflectors.

1500099 Tape Measure Sleeve
1500100 Tape Measure Holster with Retractor and Sleeve Combo

*Patent pending
**3M™ DBI-SALA® Tool Holsters**

**1500165**
Large Tape Measure Sleeve
- Compliment to existing 25' Tape Measure Sleeve.
- Provides a solution for most large tape measures used on a job site.

**1500096**
Scaffold Wrench Holster with Retractor
- Quickly holster scaffold wrenches while working at height.
- Features High-Visibility Reflectors.

**1500097** Scaffold Wrench Holster with Retractor and Hook2Loop Bungee Tether

**1500095**
Pouch Holster with Retractor
- Quickly holster tape measures and other small tools.
- Includes a Retractor.

**1500098**
Large Tape Measure Sleeve
- Compliment to existing 25' Tape Measure Sleeve.
- Provides a solution for most large tape measures used on a job site.

**1500096**
Scaffold Wrench Holster with Retractor
- Quickly holster scaffold wrenches while working at height.
- Features High-Visibility Reflectors.

**1500097** Scaffold Wrench Holster with Retractor and Hook2Loop Bungee Tether

**1500093**
Hammer Holster
- The Hammer Holster allows for the safe holstering of most hammers under 5 lb (2.3 kg).
- D-ring on the side of the holster is load rated for 5 lb (2.3 kg).
- The 1500094 combo comes with a 1500065 Hook2Quick Ring Coil Tether that is specially designed for use with the Hammer Holster. The Hook2Quick Ring Coil Tether is load rated for 2 lb (0.9 kg).
- During transport, the Hammer Holster can be locked shut with a hook and loop strap. While being used, the strap can be locked up allowing for easy hammer access and holstering.

**1500094** Hammer Holster & Hook2Quick Ring Coil Tether
- Patent pending
3M™ DBI-SALA® Tool Holsters

1500090 Battery Holster/Sleeve
- Unique sleeve design conforms to the size of most drill batteries.
- Sleeve is cinched to the drill, allowing the drill to be tethered off while being used at height.
- 10 lb. (4.5 kg) load rating.

1500088 Adjustable Radio Holster
- Holster adjusts to fit most hand-held radios, cell phones, and many other devices.
- Can be worn from belt or harness.
- A Micro D-Ring can be placed on the back of a device, and can then be tethered to a D-ring on the front of the Adjustable Radio Holster using a 1500065 Clip2Loop Coil Tether.

1500089 Adjustable Radio Holster, Clip2Loop Coil Tether and Micro D-Ring

3M™ DBI-SALA® Tool Pouches

1500130 Utility Pouch with Zipper Closure
- Features two outside pockets for storing spud wrenches and two inner pockets for storing additional tools.
- Tools can be tethered to D-rings on the inside and outside of the pouch.
- Adjustable side-release closure system helps prevent objects from falling out when the pouch isn’t being used.

Part # Description
1500123 Small Parts Pouch, extra deep canvas black
1500121 Small Parts Pouch, canvas orange
1500120 Small Parts Pouch, canvas camo
1500122 Small Parts Pouch, vinyl yellow
1500119 Small Parts Pouch, canvas black
**3M™ DBI-SALA® Safe Buckets**

With an integrated closure system that helps prevent dropped objects, these Safe Buckets are designed to be the perfect companion for workers at height carrying heavy loads.

**1500134**

Standard Safe Bucket

- Built-in connection points.
- Canvas version is load rated for 100 lb (45.4 kg), and vinyl load rated for 250 lb (113.4 kg).
- Integrated carabiner and hoisting strap.
- Durable material helps prevent punctures.

**Closure systems**

Every Safe Bucket features either a unique drawstring or a locking hook and loop closure system that acts as an extra layer of spill-protection during transport and lifting. Colourful indicator tabs provide quick visual cues to indicate whether the bucket is in lockdown mode or easy-access mode.

Hard-Body Safe Bucket Insert

- Converts a standard soft-body Safe Bucket into a hard-body Safe Bucket.
- Our reusable hard-body Safe Bucket insert keeps your Safe Bucket standing upright, making it easier to stage tools and stay productive.
- Integrated inner pockets allow tools to be holstered and organized quickly.
Compliant fall protection and emergency rescue systems help prevent serious injuries associated with fall events. Users must read and understand the User Instructions provided with the product, and must be properly trained by their employers in the safe use of these systems before using them, per OSHA 1910.140 and 1926.503 or applicable local standards. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see supervisor, User Instructions, or call 800-328-6146 (Opt. 1).
Product Selection and Use: Many factors beyond 3M’s control and uniquely within user’s knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer’s application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product in accordance with all applicable instructions and with appropriate safety equipment, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M’s option, replacement or repair of the 3M product or refund of the purchase price. Warranty claims must be made within one (1) year from the date of 3M’s shipment.

Disclaimer: 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, or death. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert. For additional product information, visit www.3M.com.
